Please Read the following statements.

Please initial on the line provided, indicating that you have read and understand the statement.

For the safety of the animal and the community, the Lycoming County SPCA does not adopt out feral cats. These animals are humanely euthanized to prevent them from ending up in an unfortunate situation where they may hurt someone, be hurt or suffer illness. The SPCA does concede that not all of these animals are mean or vicious; however, proper screening and placement of these animals far outweighs our resources as a shelter.

I understand the "Volunteer Visitor Policy" in that, I may only bring visitors during NON-Volunteer visits, during normal business hours (when the kennels are open for viewing), and I may only show them around the public areas of the building and may not get animals out of their kennels.

Please initial here._____

I understand the importance of the minimum time commitment; four to eight hours per month, for six months. Should I find the nature of this volunteer work is not what I expected, or, that I cannot complete the minimum hours for any other personal reason, I will inform the Volunteer Coordinator so she may update her records accordingly. I realize this may require me to attend all training AGAIN should I want to volunteer in the future. I understand that I may be terminated from the volunteer program and revoked of certain animal handling privileges should I exhibit an unexplained absence. This too, at the discretion of the Volunteer Coordinator, may require me to attend training again. I understand these policies are in place to ensure volunteers are confidently trained, thus lessening the chances of injury.

Please initial here._____

I understand it is recommended that I have an up to date TETANUS vaccine, in the event that I am bitten or scratched. This is not a requirement to volunteer, but is strongly advised. TETANUS vaccines need to be updated every 10 years. It may be obtained by my physician at my own expense.
